Crisis Management & Response

With dedicated teams established in various strategic locations worldwide, Blue Hackle has 24/7 crisis response and management capabilities and the right resources to provide clients with peace of mind and round-the-clock security. By working closely with local authorities and Government bodies, Blue Hackle maintains 24/7 emergency response teams with well-established emergency response procedures.

Risk Management & Mitigation

- Information gathering
- Intelligence fusion
- Command & control management of security operations
- Logistical support and liaison
- Coordination with host nations and corporate clients

Training

Blue Hackle Training Packages are delivered by highly experienced former UK and US Special Forces personnel either as a turnkey solution (ie: on site) or in fully deployed (ie: in theater) for:

- Hostile Environment/Situation Awareness
- Crisis Management
- Close Protection & Security Operations
- Counter Insurgency
- Counter Terrorism
- Command & Control and Intelligence Fusion

Static & Mobile Security

- Personal Security Detail (PSD) teams travel countrywide and can be contracted on a long-term or standby/ad hoc basis
- Highly trained and experienced Expatriate or Local National personnel provide close protection, whether short or long term
- Fully vetted and equipped Local National or Third country Nationals, with Expatriate management and oversight, provide static guarding and Explosive Detection Dog (EDD) teams to provide full asset protection and site security.

Life Support & Accommodation

Blue Hackle maintains secure villas in all countries of operation which offer clients and employees a comfortable and fully serviced base from which to conduct short or long-term business in complete security. All villas are furnished with daily housekeeping services, full-board food services, laundry, recreation (gym, lounge, internet, cable TV) and garage maintenance facilities. Blue Hackle properties are convenient for business travelers and guests with former UK and US Special Forces personnel on site and Local National security personnel providing 24/7 guarding.

Other Services

- Security Consultancy
- Evacuation Planning
- Threat Monitoring & Reporting
- Oil Theft Reduction & Mitigation
- Cultural Sensitivities

Past & Current Clients

Blue Hackle has been providing security solutions for international oil and gas companies, NGOs, government bodies, construction companies and the media since 2004.

Leadership

Blue Hackle is proud to boast a strong leadership team combining years' of military and professional experience.

- **Major General Bill Whitlow (USMC, Ret)** - Blue Hackle CEO.
- **Michael Raper** - former Blue Hackle CEO and founding member.
- **Lachlan Monro** - Board Member.

Specialists in Security

Blue Hackle is a leading global specialist in providing a range of security services including crisis management and response, risk mitigation, security training, static and mobile security, and the provision of life support including accommodation. With current projects and a past performance that include clients from the oil & gas sector, media, industry, construction, as well as the United States Government and United Nations, Blue Hackle has earned a reputation for operational excellence in delivering low-profile security services.

- Founded in 2004
- Corporate and field staff comprising UK and US Special Forces personnel
- Operating on the Special Forces methods, tactics and procedures
- Working in tandem with the local indigenous communities to ensure support
- Using security provision as a tool to assist in long-term development and construction
